

“Do we really need  
ERP ?”

“Isn't ERP a very  
expensive solution ?”

“Are any of our legacy systems  
worth retaining ?”

“How long can we expect to receive  
support from the ERP vendor ?”

**TRAVERSE FROM ? TO !**

**Yes.** ERP helps you to cut costs, take quick informed decisions and integrate every commercial function and become truly lean and mean - equipped to face global competition.

**No.** COINCAP offers you an affordable solution for a fraction of what the major international players charge. We provide everything you need and more. You don't have to spend an arm and a leg for the icing on the cake.

**No,** retaining legacy systems could lead to problems. COINCAP provides 3500 business functions in the nine completely integrated modules mentioned below.

The support is comprehensive and will continue as long as it takes to make you one hundred percent comfortable with the system. Check this out with any of our customers.

COINCAP is a complete ERP solution from COINCAP Systems & Services Private Limited and has been developed based on long and extensive experience in providing solutions to manufacturing organisations. While covering almost every business function, the package is fully integrated and flexible enough to meet your specific needs.

We have developed COINCAP- HMS a Hospital Management Package under the Financial & Technical support from **Infosys Foundation**.
